Al Smith Enters Into Congressional Campaign

DEMOCRATS NOW SEEK TO CAPTURE CONGRESS SEATS

PROSPERITY TO BE MADE REAL ISSUE BY NATIONAL PARTY LEADERS

BATTLE IS TO BE CARRIED ON OVER THE RADIO AND ON THE STUMP

By THOMAS L. STOKES (United Press Staff Correspondent)

Washington, Aug. 21.—Entrance of Alfred E. Smith into the congressional campaign today sounds the opening of a democratic offensive to capture congress, with prosperity as the major issue. Other national party leaders will join the battle over the radio and on the stump.

Smith's dramatic reappearance with a statement stressing the prosperity issue, and linking it with a declaration against religious intolerance and prohibition, follows, significantly, an attack by Republican House Floor Leader Tilson on John J. Raskob of the national committee, Smith's friend and 1928 campaign manager.

Tilson's attack was interpreted as a piece of republican strategy to revive the split among democrats over Raskob and Smith, which appeared chiefly in the south. Smith's message to the West Orange, N. J., Joel Parker Association, harks back to the issues of the 1928 campaign, and is a typical Smith act in meeting the enemy with a forthright challenge.

Beyond this personal element, his entrance into the campaign represents a decision among other party leaders to bring him into the heated fall battle despite the likelihood that it will revive the issues of the 1928 campaign.

They have weighed this possibility and have decided that Smith's ability as a leader and as a speaker with a wide appeal offsets it. Smith is expected to be called upon for addresses over a nation-wide hook-up in the next few weeks. Naturally, he will attract large audiences, as he did in the 1928 campaign.

Raskob also is expected to enter the campaign. John W. Davis, the 1924 democrat nominee, is expected to be among the speakers, and James M. Cox, of Ohio, the 1920 standard-bearer, likewise may be enlisted. Senator Robinson of Arkansas, senate democratic floor leader and Smith's 1928 running mate, also will be heard over the radio.

Smith is the titular head of his party, and he returns to the national scene in this capacity. He set the tone of the campaign with his prediction that the democratic party "will soon be in national control, and will make this a happy as well as a prosperous nation." The prosperity issue will be emphasized most strongly.

Jouett M. Shouse, who as chairman of the national executive committee, is directing the publicity campaign, has claimed his party will conquer the house as well as the senate. An over-turn of 50 seats would be necessary for the democrats to gain the house, and this would be a sizeable shift. Cautious observers do not regard that as likely, though most are unwilling to prophesy.

An over-turn of ten seats in the senate would give the democrats a majority. At the present time, the senate is divided, 56 republicans, 39 democrats and one farmer-labor, although nominally the republicans have only a paper majority there, as several western republicans vote frequently with the minority party.

GOVERNOR ROOSEVELT OF NEW YORK DECIDES UPON PLANS

CHARGES MADE AGAINST NEW YORK MAGISTRACY COURTS

Albany, N. Y., Aug. 21.—(U.P.)—Governor Franklin D. Roosevelt has decided upon a definite plan for investigating the entire list of graft charges against the New York magistracy courts.

His first step in this direction took the form of written requests to Justices Victor J. Dowling and Edward Lazansky, presiding officers of the appellate division courts, asking them to undertake an inquiry of the entire inferior court system in the Metropolis.

Attorney Hamilton Ward, meanwhile, has begun study of specific charges that George F. Ewald, former magistrate, paid \$10,000 for his post to Martin J. Healy, Tammany district leader, who resigned yesterday as deputy commissioner of plants and structure.

REVIVED FEUD BETWEEN AIMEE AND HER MOTHER

ATTRACTS THIRD COMBATANT AT LOS ANGELES TODAY

MAE WALDRON, CO-WORKER OF EVANGELIST, ENTERS THE BATTLE

By GEORGE H. BEALE (United Press Staff Correspondent)

Los Angeles, Aug. 21.—The revived feud between Aimee Semple McPherson and her mother, Mrs. Minnie Kennedy, attracted a third combatant today.

Mae Waldron, co-worker of the evangelist at Angelus Temple, entered the battle on Mrs. McPherson's side when Mrs. Kennedy declared she was the cause of all the recent trouble.

It was Miss Waldron, said Mrs. Kennedy, who was responsible for separating the mother and daughter and who circulated exaggerated reports of the evangelist's illness.

"If it wasn't for her I wouldn't have had my nose broken and my daughter and I would be good friends and everything would be all right," declared Mrs. Kennedy. "She's at the bottom of all the trouble."

Miss Waldron retaliated with a general denial of this statement and added that she once had to lock Mrs. Kennedy in a closet because "she talked so much."

While the battle raged between Miss Waldron and Mrs. Kennedy the evangelist herself was at her Malibu Beach cottage recovering from a nervous breakdown and preparing for a possible appearance on the platform of her "Four-Square" Gospel church on Sunday.

So far she has issued no reply to Mrs. Kennedy's latest accusation—that "she once threatened to have me killed."

Mrs. Kennedy charged that Miss Waldron "has sister in her control."

Mrs. Kennedy and I haven't spoken since the big argument," Miss Waldron answered. "She is angry because I locked her in the closet to keep her quiet. She was saying all sorts of things about me."

"Her nose isn't broken, either. She just had an operation on it. She says sister broke her nose just to gain sympathy. Sister didn't strike her at all."

Mrs. McPherson said her mother fell to the floor in a tantrum and that if her nose was injured it was when she fell.

"Nothing but Mrs. Kennedy's dignity was hurt," declared Miss Waldron.

The order is returnable Sept. 29. The Augusta Chronicle, Columbia Record, Spartanburg Herald and the Spartanburg Journal were purchased by Lavarre and Harold Ball with money partly furnished by the International Paper & Power Co.

Lavarre was held in contempt for his refusal to furnish records concerning purchase of the papers in litigation over their ownership.

Tong War Developments in Duluth, Yap Tuan Arrested When He Enters St. Paul City Limits

LATTER IS MEMBER OF CHICAGO GROUP OF HIP SING TONG

HELD AS SUSPECT IN KILLING OF TUNG YUEN, AGED 73

DULUTH LAUNDRYMAN IS SHOT DOWN BY TWO MEN ON WEDNESDAY

St. Paul, Minn., Aug. 21.—(U.P.)—Yap Tuan, 25, Chicago, member of the Hip Sing tong, was arrested today by a police radio squad car when he crossed the city limits in a Superior, Wis., taxicab.

Tuan was held as a suspect in the killing of Tung Yuen, 73, Duluth laundryman who was shot down by two men Wednesday night. Questioned by police, Tuan said he knew nothing of the shooting in Duluth but police were holding him until Duluth officials could arrive here.

Radio broadcasts for the arrest of possible suspects in the shooting in Duluth were sent out when Duluth police said the alleged slayers headed for the Twin Cities.

Yuen was struck by five of 11 shots that fired in his laundry last night and a knife was found plunged into his body, apparently after he had fallen under the gun fire.

The slayers were seen to escape in a large sedan, witnesses told police today at Duluth. Officers found four weapons in the laundry—two revolvers, a knife on the floor and the knife which had been thrust into Yuen.

If questioning by Duluth police leads them to believe Tuan was involved in the slaying, he will be taken back there late today. Meanwhile, local officers awaited the arrival of Duluth officers.

Frank Conia, Superior taxicab driver, today told how he had driven Tuan to the Twin Cities along a devious route that took him through Wisconsin and central Minnesota but not through Duluth. Conia said the Chinese had insisted that he would not go to the Twin Cities by way of Duluth. The taxi driver commented on the apparently nervous state of the man and his hurry to leave.

Duluth, Minn., Aug. 21.—Chief of Detectives Robert Donaldson today said questioning of Chinese had convinced him that a tong killing was not the motive for the slaying of Tung Yuen, 73. He did not elaborate on his new theory but only said he was convinced now that the man had not been killed because of a renewal of tong warfare here.

SECOND VICTIM OF GUN BATTLE DIES IN CHICAGO

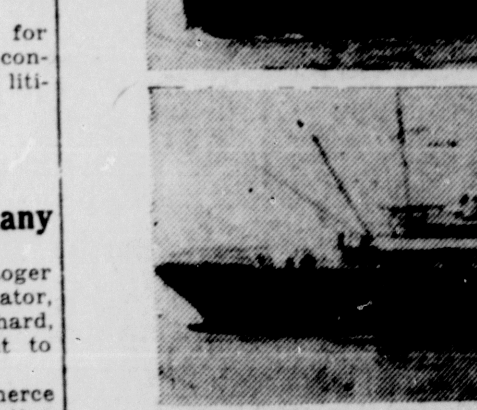

Chicago, Aug. 21.—(U.P.)—Bernard Rubery, 35, died today, the second victim of a mysterious gun battle which police said resulted from plumbers' union troubles.

Rubery was wounded yesterday afternoon when he and Charles Mulcahy, 44, nationally known labor leader, went to the site of the new Lane technical high school. Mulcahy was killed instantly by the same men who shot Rubery and then escaped.

After the Ventura had reached the scene in the South Seas where the Tahiti, bound from Australia to San Francisco, was floundering, considerable difficulty was met in getting the passengers into an orderly position beside the lifeboats.

Many insisted upon dancing until the dance number was finished while others repaired to their staterooms to shave and otherwise prepare for the transfer to the waiting Ventura.

UGLY SPECTRE OF DEATH WAS OVER THEM

PASSENGERS ABOARD STRICKEN VESSEL TAHITI ARE RECOVERING

HEARD DESCRIPTION OF PLIGHT BROADCAST FROM RADIO STATION

By E. F. KNEUBUHL (United Press Staff Correspondent)

Pago Pago, Samoa, Aug. 21.—While the ugly spectre of death hovered over them, passengers aboard the stricken vessel Tahiti danced to lilting jazz tunes and heard a description of their plight being broadcast from a radio station at Sydney, Australia.

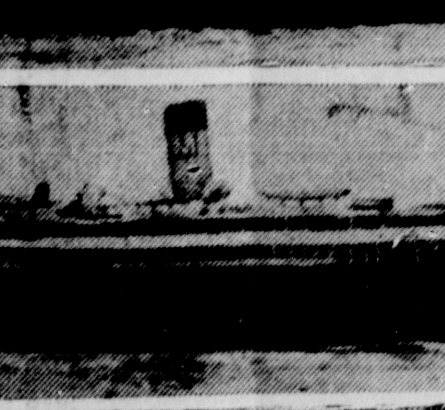

This was learned today from the crew of the ill-fated vessel brought here by the rescue ship Ventura. Officers of both the Tahiti and the Ventura declared the doomed ship would have sunk with all on board had the Ventura arrived an hour later than it did.

Thrilling tales of bravery and a gay acceptance of an uncertain fate were pieced together from stories told by members of both vessels.

After the Ventura had reached the scene in the South Seas where the Tahiti, bound from Australia to San Francisco, was floundering, considerable difficulty was met in getting the passengers into an orderly position beside the lifeboats.

Many insisted upon dancing until the dance number was finished while others repaired to their staterooms to shave and otherwise prepare for the transfer to the waiting Ventura.

VALUES LIFE LESS THAN REPUTATION FOR HONESTY

ANTONE ANLECKI, CHICAGO, A NEIGHBOR BANKER, KILLED BY BANDIT

GAVE UP HIS OWN MONEY, BUT HELD INTACT NEIGHBORHOOD DEPOSITS

Chicago, Aug. 21.—(U.P.)—Antone Anlecki, bartender and neighborhood "banker," gave his life today because he valued it less than he did his reputation for honesty.

Anlecki, 42, and a bachelor, for years has operated a soft drink parlor. He had a large safe and many of his neighbors did all their "banking" with him. He guarded their money and trusted them as they trusted him.

Last year, two bandits attacked the bartender. They knew as every one else in the neighborhood, the money was there and they beat him with clubs and burned him with hot irons, but he would not open the safe.

His own money he gave to them, but not a penny of his neighbors' was lost.

Early today Anlecki was awakened by a noise. He arose, procured a revolver, crept into the front room, saw an intruder and fired. Flashes of fire cut back and forth across the darkened room as he fought the intruder.

Anlecki fell. The burglar stumbled from the room, wounded.

Police followed a trail of blood to the home of Frank Kulka, who recently completed a five-year sentence at Pontiac, Mich., prison. Kulka had been shot.

Anlecki was taken to a hospital. He died a few hours later.

ARRESTS ARE EXCEEDING COURT TRIAL CAPACITY

RESULTS GIVEN OF JUSTICE DEPARTMENT'S MOVES IN PROHIBITION ENFORCEMENT

MADE PUBLIC TODAY BY PROHIBITION DIRECTOR AMOS W. WOODCOCK

By LYLE C. WILSON (United Press Staff Correspondent)

Washington, Aug. 21.—Results of the justice department's first month of prohibition enforcement, showing arrests continuing to exceed the capacity of courts to try offenders, were made public today by Prohibition Director Amos W. W. Woodcock.

The statistics related to the month of July, the justice department having assumed responsibility for enforcement on July 1 when Woodcock took office.

There were 22,173 cases pending on the criminal dockets on July 1 in the 12 administrative districts, the report showed. During July, 6,524 prohibition arrests were made, and in 3,828 cases the arrested persons were held by U. S. commissioners for trial.

On August 1 the number of cases pending had increased to 22,497, or 324 more than on July 1. Woodcock explained this increase was due partially to the fact that July is a vacation month and many judges were away from their courts.

In the first month of the new regime, Woodcock was able to list 1,392 convictions, sentences aggregating 127,804 days in jail and fines totalling \$218,752.48. There were 202 acquittals or cases in which U. S. attorneys quashed indictments.

The average prohibition law violator was sentenced to 152.6 days in jail in July and the average fine was \$159.58. Agents seized 1,339,277 gallons of beer and 111,672 gallons of spirits. They confiscated 724 automobiles, 11 boats, 1,963 stills and 12,353 fernterries. Permanent injunctions were issued against 307 persons, while the courts ordered forfeiture of property in 148 cases.

Striking contrasts appear in the detailed state figures which form the basis for the general statistics. In the southern or New York district of New York, there were 899 arrests during July and only five convictions.

Those unaccounted for and considered lost late this afternoon were: The Rt. Hon. Henry Douglas King, member of parliament and former secretary of mines, who chartered the yacht to participate in the royal yacht squadron's regatta; Surgeon-Captain A. R. Braley, medical officer of the training ship H. M. S. President; Commander Sydney Searle of the Royal Naval Volunteer Reserve; Capt. Glazebrook of Bishop Stortford, Hertfordshire; the captain of the Islander, and one deck hand.

Police said the bodies of two young children were washed ashore near the scene of the wreck. They were believed to have come from the Islander which would make the death toll eight.

Sir Arthur Quiller-Cough, author, whose home at Fowey overlooks the scene of the disaster, witnessed the sinking of the yacht.

London, Aug. 21.—A statement issued by the headquarters of the conservative party today said that former Secretary of Mines Henry Douglas King, conservative member of parliament, and seven other persons were believed drowned in the sinking of the yacht Islander in Lanivet Bay last night.

The statement confirmed the presence of the following persons, all unaccounted for since the wreck, aboard the yacht:

Commodore King, Commander Sydney Searle, Captain Braley, Captain Glazebrook, one of King's daughters, three deck hands.

VIOLENT GALE SWEEPED ENGLISH COAST IN NIGHT

ROYAL YACHT SQUADRON CRAFT FORCED ASHORE NEAR POLPEERO, ENG.

YACHT HAD BEEN CHARTERED BY RT. HON. HENRY DOUGLAS KING

Polpeero, Cornwall, Eng., Aug. 21.—(U.P.)—The motor yacht Islander was swept on the rocks of Lanivet Bay by a violent gale last night and wrecked.

Eight were reported drowned. The royal yacht squadron craft was forced ashore three miles from Polpeero while participating in the squadron's regatta.

The yacht Islander had been chartered by the Right Hon. Henry Douglas King, former secretary of mines, for the voyage that ended in the wreck of the craft, and it was feared that he had been drowned.

Heavy seas prevented lifeboats going to the aid of the Islander. While the boats were held on shore the craft was forced further on the rocks by the violent gale.

The yacht, which could be seen from the shore, was believed enroute from Lanivet to Fowey at the time of the wreck.

Coast guards were searching the coast for survivors or bodies. The Islander was owned by Lieut. Colonel John Newton Diggle of Rotherham, Yorkshire.

The Islander's plight became known when she sent out a night distress signal to which the Fowey lifeboat crew responded. A lifeline was fired over the yacht but apparently no one on board was able to grasp and hold it.

Two coast guards descended the face of the cliff near where the yacht was pounding on the rocks and distinctly heard screams which they believed were from women trapped in the cabin of the craft.

The first actual sign of life on the Islander was the appearance of a man who dived overboard and swam strongly for the shore despite the pitching sea. When he had fought his way a short distance from the yacht, he was knocked about by the high seas and quickly went down.

It was feared that members of parliament were among the drowned. King was an M. P. and some of his parliamentary colleagues may have been with him on the yacht.

A witness said he saw the yacht turn over.

"I saw what I thought were two women and a young boy washed overboard," he reported.

London, Aug. 21.—Eight persons were aboard the yacht Islander when she was wrecked today, the firm of Crowther, Sewell and Pafford, London charterers of the motor yacht, said. All were English and the firm believed Commodore King was aboard.

Fowey, Eng., Aug. 21.—Eight persons were believed drowned in the wreck of the yacht Islander, of the royal squadron, which was driven on the rocks of Lanivet Bay and sank.

Those unaccounted for and considered lost late this afternoon were: The Rt. Hon. Henry Douglas King, member of parliament and former secretary of mines, who chartered the yacht to participate in the royal yacht squadron's regatta; Surgeon-Captain A. R. DULUTH LAUNDRYMAN IS SHOT
DOWN BY TWO MEN ON
WEDNESDAY

St. Paul, Minn., Aug. 21.—(U.P.)—Yap Tuan, 25, Chicago, member of the Hip Sing tong, was arrested today by a police radio squad car when he crossed the city limits in a Superior, Wis., taxicab.

Tuan was held as a suspect in the killing of Tung Yuen, 73, Duluth laundryman who was shot down by two men Wednesday night. Questioned by police, Tuan said he knew nothing of the shooting in Duluth but police were holding him until Duluth officials could arrive here.

Radio broadcasts for the arrest of possible suspects in the shooting in Duluth were sent out when Duluth police said the alleged slayers headed for the Twin Cities.

Yuen was struck by five of 11 shots that fired in his laundry last night and a knife was found plunged into his body, apparently after he had fallen under the gun fire.

The slayers were seen to escape in a large sedan, witnesses told police today at Duluth. Officers found four weapons in the laundry—two revolvers, a knife on the floor and the knife which had been thrust into Yuen.

If questioning by Duluth police leads them to believe Tuan was involved in the slaying, he will be taken back there late today. Meanwhile, local officers awaited the arrival of Duluth officers.

Frank Gonia, Superior taxicab driver, today told how he had driven Tuan to the Twin Cities along a devious route that took him through Wisconsin and central Minnesota but not through Duluth. Gonia said the Chinese had insisted that he would not go to the Twin Cities by way of Duluth.

The taxi driver commented on the apparently nervous state of the man and his hurry to leave.

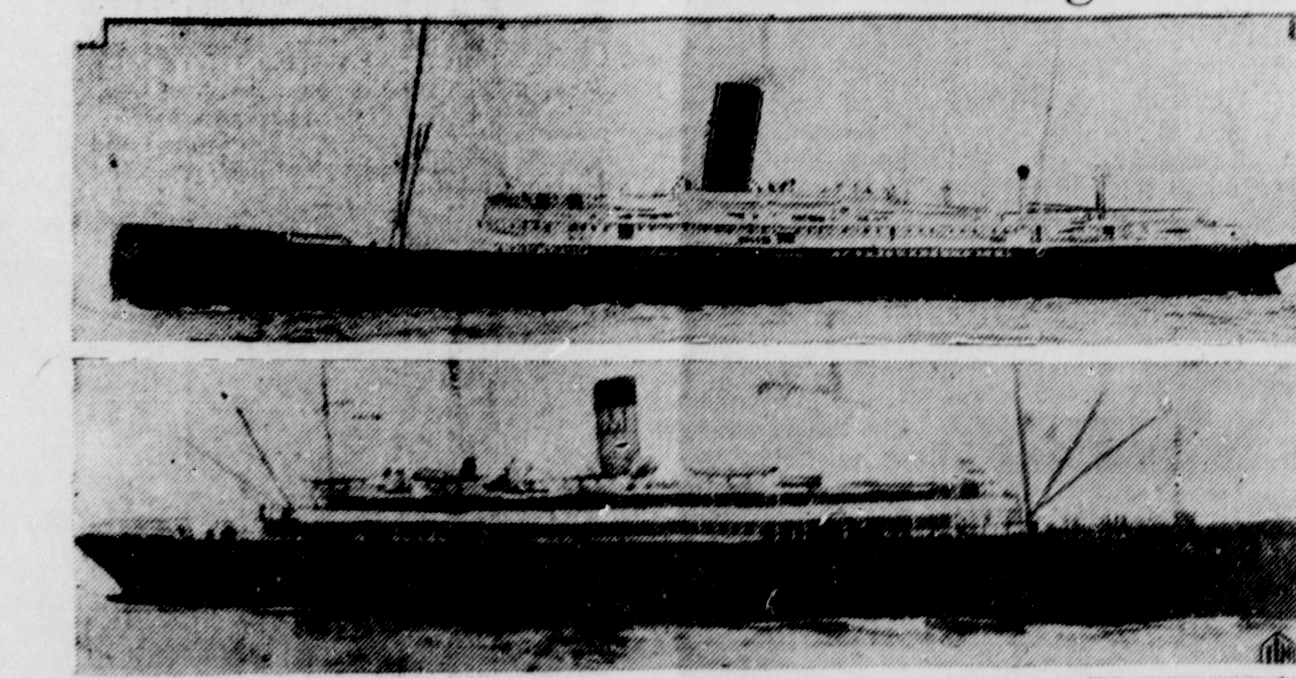

Duluth, Minn., Aug. 21.—Chief of Detectives Robert Donaldson today said questioning of Chinese had convinced him that a tong killing was not the motive for the slaying of Tung Yuen, 73. He did not elaborate on his new theory but only said he was convinced now that the man had not been killed because of a renewal of tong warfare here.

Chicago, Aug. 21.—(U.P.)—Bernard Ruberry, 35, died today, the second victim of a mysterious gun battle which police said resulted from plumbers' union troubles.

Ruberry was wounded yesterday afternoon when he and Charles Mulcahy, 44, nationally known labor leader, went to the site of the new Lane technical high school. Mulcahy was killed instantly by the same men who shot Ruberry and then escaped.

THAN REPUTATION

ANTONE ANIECKI, CHICAGO, A
NEIGHBOR BANKER, KILLED
BY BANDIT

GAVE UP HIS OWN MONEY, BUT
HELD INTACT NEIGHBOR-
HOOD DEPOSITS

Chicago, Aug. 21.—(U.P.)—Antone Aniecki, bartender and neighborhood "banker," gave his life today because he valued it less than he did his reputation for honesty.

Aniecki, 42, and a bachelor, for years has operated a soft drink parlor. He had a large safe and many of his neighbors did all their "banking" with him. He guarded their money and trusted them as they trusted him.

Last year, two bandits attacked the bartender. They knew as every one else in the neighborhood, the money was there and they beat him with clubs and burned him with hot irons, but he would not open the safe. His own money he gave to them, but not a penny of his neighbors' was lost.

Early today Aniecki was awakened by a noise. He arose, procured a revolver, crept into the front room, saw an intruder and fired. Flashes of fire cut back and forth across the darkness as he fought the intruder. Aniecki fell. The burglar stumbled from the room, wounded.

Police followed a trail of blood to the home of Frank Kulka, who recently completed a five-year sentence at Pontiac, Mich., prison. Kulka had been shot.

Aniecki was taken to a hospital. He died a few hours later.

ARRESTS ARE
EXCEEDING COURT
TRIAL CAPACITY

RESULTS GIVEN OF JUSTICE DE-
PARTMENT'S MOVES IN PRO-
HIBITION ENFORCEMENT

MADE PUBLIC TODAY BY PROHI-
BITION DIRECTOR AMOS W.
W. WOODCOCK

By LYLE C. WILSON
(United Press Staff Correspondent)

Washington, Aug. 21.—Results of the justice department's first month of prohibition enforcement, showing arrests continuing to exceed the capacity of courts to try offenders, were made public today by Prohibition Director Amos W. W. Woodcock.

The statistics related to the month of July, the justice department having assumed responsibility for enforcement on July 1 when Woodcock took office.

There were 22,173 cases pending on the criminal dockets on July 1 in the 12 administrative districts, the report showed. During July, 6,524 prohibition arrests were made, and in 3,828 cases the arrested persons were held by U. S. commissioners for trial.

On August 1 the number of cases pending had increased to 22,497, or 324 more than on July 1. Woodcock explained this increase was due partially to the fact that July is a vacation month and many judges were away from their courts.

In the first month of the new regime, Woodcock was able to list 1,392 convictions, sentences aggregating 127,804 days in jail and fines totalling \$218,752.48. There were 202 acquittals or cases in which U. S. attorneys quashed indictments.

The average prohibition law violator was sentenced to 152.6 days in jail in July and the average fine was \$159.58. Agents seized 1,339,277 gallons of beer and 111,672 gallons of spirits. They confiscated 724 automobiles, 11 boats, 1,963 stills and 12,353 fermenters. Permanent injunctions were issued against 307 persons, while the courts ordered forfeiture of property in 148 cases.

Striking contrasts appear in the detailed state figures which form the basis for the general statistics. In the southern or New York district of New York, there were 899 arrests during July and only five convictions.

There were 314 persons originally arrested, but 126 were freed because of insufficient proof of their guilt. Four of the men indicted died during the examination phase of the case and two were taken to an insane asylum.

The defendants will sit in a great iron cage in the court room, except for the most hardened criminals who will be placed in small cages. All will be handcuffed and guarded by carabinieri.

VIOLENT GALE
SWEEP ENGLISH
COAST IN NIGHT

ROYAL YACHT SQUADRON CRAFT
FORCED ASHORE NEAR
POLPEERO, ENG.

YACHT HAD BEEN CHARTERED
BY RT. HON. HENRY DOUG-
LAS KING

Polpeero, Cornwall, Eng., Aug. 21.—(U.P.)—The motor yacht Islander was swept on the rocks of Lantivet Bay by a violent gale last night and wrecked.

Eight were reported drowned. The royal yacht squadron craft was forced ashore three miles from Polpeero while participating in the squadron's regatta.

The yacht Islander had been chartered by the Right Hon. Henry Douglas King, former secretary of mines, for the voyage that ended in the wreck of the craft, and it was feared that he had been drowned.

Heavy seas prevented lifeboats going to the aid of the Islander. While the boats were held on shore the craft was forced further on the rocks by the violent gale.

The yacht, which could be seen from the shore, was believed enroute from Lantivet to Fowey at the time of the wreck.

Coast guards were searching the coast for survivors or bodies. The Islander was owned by Lieut. Colonel John Newton Diggle of Rotherham, Yorkshire.

The Islander's plight became known when she sent out a night distress signal to which the Fowey lifeboat crew responded. A lifeline was fired over the yacht but apparently no one on board was able to grasp and hold it.

Two coast guards descended the face of the cliff near where the yacht was pounding on the rocks and distinctly heard screams which they believed were from women trapped in the cabin of the craft.

The first actual sign of life on the Islander was the appearance of a man who dived overboard and swam strongly for the shore despite the pitching sea. When he had fought his way a short distance from the yacht, he was knocked about by the high seas and quickly went down.

It was feared that members of parliament were among the drowned. King was an M. P. and some of his parliamentary colleagues may have been with him on the yacht.

A witness said he saw the yacht turn over.

"I saw what I thought were two women and a young boy washed overboard," he reported.

London, Aug. 21.—Eight persons were aboard the yacht Islander when she was wrecked today, the firm of Crowther, Sewell and Pafford, London charterers of the motor yacht, said. All were English and the firm believed Commodore King was aboard.

Fowey, Eng., Aug. 21.—Eight persons were believed drowned in the wreck of the yacht Islander, of the royal squadron, which was driven on the rocks of Lantivet Bay and sank. Those unaccounted for and considered lost late this afternoon were:

The Rt. Hon. Henry Douglas King, member of parliament and former secretary of mines, who chartered the yacht to participate in the royal yacht squadron's regatta; Surgeon-Captain A. R. Brailey, medical officer of the training ship H. M. S. President; Commander Sydney Searle of the Royal Naval Volunteer Reserve; Capt. Glazebrook of Bishop Stortford, Hertfordshire; the captain of the Islander, and one deck hand.

Police said the bodies of two young children were washed ashore near the scene of the wreck. They were believed to have come from the Islander which would make the death toll eight.

Sir Arthur Quiller-Couch, author, whose home at Fowey overlooks the scene of the disaster, witnessed the sinking of the yacht.

London, Aug. 21.—A statement issued by the headquarters of the conservative party today said that former Secretary of Mines Henry Douglas King, conservative member of parliament, and seven other persons were believed drowned in the sinking of the yacht Islander in Lantivet Bay last night.

The statement confirmed the presence of the following persons, all unaccounted for since the wreck, aboard the yacht:

Commodore King, Commander Sydney Searle, Captain Brailey, Captain Glazebrook, one of King's daughters, three deck hands.

The Crow Wing County Fair

Pequot, Minn., August 21, 22, 23

Dear friend:

We hope you will come to the fair. We've arranged a great program for you, without a dull moment from start to finish, and your half dollar will buy more entertainment at the fair this year than you will believe possible.

The fair programs will open tonight with one of the finest entertainments of the fair. Richard Lindenhahn and Clarence Graves of the Minneapolis Symphony Orchestra will play French horn and violin numbers, many of the free act performances will be staged, including that of Fred Reckless on an 85-foot pole, under the glare of powerful spotlights, one of the most thrilling sights on the fair circuits this year. On this night, too, members of the boys and girls clubs will stage the opening numbers of their competitive programs, which will continue Friday and Saturday.

Friday will be Club Day and 4-H club members will have prominent parts in the programs with demonstrations, stunts, etc. There will be music by the American Legion Auxiliary Band of Brainerd, with drills and stunts, and, to make the day particularly interesting for the children, there will be an animal circus of performing ponies, mules and dogs. Baseball between Pequot and Pine River teams, a talk by Chas. A. Lethert, St. Paul attorney and president of the State Poultry Association, and surprise numbers will fill the day.

Saturday will be another big day, with a full program. Performances by the free acts, music by the band, a hot ball game between Pequot and Backus to decide a three-game series, and, GET THIS, in the evening a concert by the Northwestern National Bank Band of Minneapolis, 33 musicians you have probably often heard over the radio. This group is coming on a friendly visit to help make the fair a success. They come in a special bus, and will be the guests of the community over Saturday night. If the weather is bad Saturday night, it is planned their concert will be given early Sunday afternoon. Let's show our appreciation of their friendliness by a big turnout from all parts of the county.

We hope that the people of the county will take advantage of this opportunity to see the exceptionally fine entertainment we have provided. The admission price is low, and children are admitted free. Bring the children. You remember how it is yourself—they will never forget the good time they will have at the fair.

And don't overlook the exhibits. Here you'll see what surprising things the boys and girls can do with a little supervision. See them win trips to state and national fairs with their exhibits and demonstrations. See the flower show, and the displays of fancy work and cooking and baking; the poultry show with its splendid birds; the dairy stock and the horses and hogs and sheep. See what the county will produce at an early date and in a drought year.

Come prepared to find something to do and to enjoy every minute of the time.

Sincerely yours,

F. T. GUSTAVSON, President.

When Trouble Comes

STUDYING the philosophy of trouble, one finds that it has a cumulative effect. Just as brakemen and other railway men believe that one accident will bring two more in its wake, and that three must pile up before the jinx is removed, so do we find troubles accumulating.

In a poor family of many children, one finds that if one gets sick, several more will contract the same malady. After sickness comes accidents of various kinds, then other calamities and it seems just as though a family has been singled out to get all the visitations of trouble which can collect.

In speaking one time to the late Judge Hale of Deerwood, who was later on the State Tax Commission, reference was made to the then dull times prevailing. It was remarked that the depression seemed to have reached bottom and that an upturn should be in evidence soon.

"It is remarkable how many sub-basements there may be," said the judge.

Touring Comfortably in the East

REV. A. G. PATTERSON, his estimable wife and several children are engaged in a two months motor tour of the East. A postal card reached the Brainerd Dispatch giving a view of a Maine potato field. "This section," writes Rev. Patterson, "is one of the greatest potato countries in the world." In that north country good potatoes and large yields are the rule and production and quality vie with Minnesota.

The Pattersons will have covered most of New England and the East coast country before they return to Brainerd. Everything has gone fine on the trip and they will have much to tell about and to write about when they get home. His experiences among people and along the road will furnish foundation for many facts and fancies in coming sermons to be given by the popular minister of the First Presbyterian church of Brainerd.

JACK ZUTA with his various black boxes in safety deposit vaults, appears to have been too methodical to satisfy some of the friends of the gangsters. Revelations continue to astound ordinary people who cannot understand what relationship gangsters may have with official life.

WHEN one compares drought stricken areas in seven states with conditions in Crow Wing county, then this county has nothing to complain of because crops may be light in some places. This county, as usual, seems to survive all kinds of weather changes and always carries the farmers through.

BETTER fishing is reported at many lakes, due to a moderation of the hot weather.

The Watkins man was around in Maple Grove this week.

Mr. O'Brien is putting up a new barn on his farm which the wind blew down in a big storm.

SIBLEY

Mr. and Mrs. Pete Rasmussen called at the J. C. Norem home Sunday evening.

Mrs. Orville Aas spent Tuesday with her folks, Mr. and Mrs. R. Houge.

The Sunday school from the Norwegian Lutheran church at Pequot held their picnic at the Oscar Olson farm Sunday. A very large crowd attended and every one enjoyed the day.

Mrs. J. M. Atwater of Pequot was an afternoon caller of Mrs. Cooper Monday.

Orville Aas and Orlando Johnson did some work on the tennis court at the Hermen's resort Tuesday.

Mrs. I. C. Norem returned from a trip to Madison, Wis., with her brother and family. She reports that crops in that section are looking good where they have had plenty rain.

Happy Days

Little Mary was on a visit to her grandparents and the old-fashioned grandfather clock in the hall was a source of wonderment to her. While she was standing before it her grandmother said to her from the next room: "Is the clock running, dear?" "No, ma'am," promptly replied Mary, "it's just standing still and waggling its tail."—Montreal Star.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Economy Drug Co., Johnson's Pharmacy, advt.

Joyous Foot Bath
Then Lift Out

CORN

Root and All—Out To Stay!

Two tablespoonsful of that amazingly refreshing and foot invigorating Radox to one gallon of water makes a footbath which after 3 or 4 night's soaking lifts out aching, maddening corns, callouses, too—root and all.

Radox softens the hard outer layers of corn — and oxygen which Radox liberates, enters the pores, each night penetrating further and further, carrying the salts right to root of corn which can be lifted out bodily.

Wonderful to take out pain and burning and refresh tired feet! Get a package of Radox at Johnson's Pharmacy, Economy Drug Co. or any drug store and know the joyous comfort of corn and callous free feet—Radox is the modern, scientific method to remove corns which completely eliminates old fashioned plaster, dangerous cutting, skin destroying acids and obsolete methods. adv.

Here's another harmful effect of excessive gum in gasoline—fewer miles per gallon.

Inferior or carelessly refined gasolines contain excessive gum. This is deposited on your valves causing delayed seating and, in some cases, complete sticking of valves. Faulty valve operation allows unburned gasoline to blow out through the exhaust—unused and wasted!

Koolmotor Gasoline—the original high test, anti-knock green gas—is free from harmful gum. It is powerful and clean burning—keeps your valves clean—allows them to function perfectly at all times.

A special process—the Cities Service mini-gum process—reduces the gum content in Koolmotor Gasoline to a harmless minimum.

Get more miles per gallon—power when you want it—perfect engine action every mile of the way by keeping your tank full of Koolmotor—the gas that is free from harmful gum.

Happy Days

Little Mary was on a visit to her grandparents and the old-fashioned grandfather clock in the hall was a source of wonderment to her. While she was standing before it her grandmother said to her from the next room: "Is the clock running, dear?" "No, ma'am," promptly replied Mary. "It's just standing still and wagging its tail."—Montreal Star.

DON'T LET GUMMY GASOLENE STEAL YOUR MILEAGE

USE KOOLMOTOR GASOLENE

IT'S
FREE FROM HARMFUL GUM

Here's another harmful effect of excessive gum in gasoline—fewer miles per gallon.

Inferior or carelessly refined gasolines contain excessive gum. This is deposited on your valves causing delayed seating and, in some cases, complete sticking of valves. Faulty valve operation allows unburned gasoline to blow out through the exhaust—unused and wasted!

Koolmotor Gasolene—the original high test, anti-knock green gas—is free from harmful gum. It is powerful and clean burning—keeps your valves clean—allows them to function perfectly at all times.

A special process—the Cities Service mini-gum process—reduces the gum content in Koolmotor Gasolene to a harmless minimum.

Get more miles per gallon—power when you want it—perfect engine action every mile of the way by keeping your tank full of Koolmotor—the gas that is free from harmful gum.

CHICAGO SERIES MAY DECIDE NATIONAL PENNANT

CUBS DEFEND THEIR THREE GAME LEAD

FACE NEW YORK GIANTS, NOW
OCCUPYING SECOND
PLACE

ALL 3 NATIONAL LEADERS WERE
BEATEN IN WEDNESDAY
Games
(By United Press)

A series which may decide the national league pennant race opens in Chicago today, with the Cubs defending their three game lead against the second place New York Giants.

Last week it was the challenge of the Brooklyn Robins which Joe McCarthy's tribe had to stand off. The Cubs sent the Robins skidding down into third place and nearly out of the picture. Now the Giants, who have made a victorious swing into the west, arrive at Chicago to battle for league leadership.

All three national league leaders were beaten Wednesday, the Robins going so far as to drop a double-header to the Cincinnati Reds, both by the score of 2 to 1.

The Cubs found the hard-hitting Phillies too much for them and five home runs enabled the Phils to win, 10 to 8. Klein, O'Doul and Hurst each hit one, and Catcher Davis came through with two.

The Giants came a cropper at the hands of the Cardinals, and failed to gain. They had a four run lead, but Shanty Hogan dropped the ball when Jimmy Wilson crashed into the plate in the seventh, and the Cards won out, 5 to 4.

The Pittsburgh Pirates hitched up a notch closer to the first division by defeating the Boston Braves, 5 to 0. Remy Kremer won his 17th victory of the season.

In the American league race the leading Philadelphia Athletics beat the Detroit Tigers, 10 to 4. Lefty Grove registered his 21st win of the year.

Washington made up in a measure for some disappointing beatings at the hands of the Browns by walloping their St. Louis visitors, 14 to 4.

Milwaukee, Aug. 21.—(U.P.)—The tail-end Milwaukee Brewers outdid themselves in the first game yesterday to take an 8 to 2 victory over the league-leading Louisville Colonels. The Colonels came back to take the nightcap 8 to 5.

Minneapolis, Aug. 21.—(U.P.)—Minneapolis scored two runs in the ninth inning to win a 6 to 5 victory over Columbus in the first game yesterday, but the visitors hammered four pitchers viciously to win the nightcap, 14 to 8.

RIVETS MAKE THE SUBMARINE AIR-TIGHT

The TORRID ZONE STEEL FURNACE is gas-tight and dust-tight because it is riveted

Fumes can never drift up from a Torrid Zone Warm Air Furnace to annoy the family in the dining-room, living-room or in any other part of the house. It is made of steel plate, rolled in the same mills that make armor plate for battleships. It is really an air-tight steel drum.

For just as the submarine is made air-tight by being hot-riveted and cold-calked . . . so the steel Torrid Zone is made gas, smoke and dust-tight.

... Made gas, smoke and dust-tight to shield your family from fumes that poison; to protect your home from smudgy smoke and dust. No more dingy ceilings. No more discolored wall-paper or sooty draperies and upholsteries.

With a Torrid Zone you also get proper humidity and air circulation. The humidifier has twice the evaporating area inside the casing of ordinary water pans. Rapid evaporation is also necessary, so it is placed right over the firing doors where it gets the most heat possible. Proper air circulation is guaranteed, when an authorized Lennox Furnace man installs according to the Standard Code. Indeed, with this furnace in your home you have the satisfaction of knowing you own the finest heating plant science has ever devised.

Your Torrid Zone Steel Furnace will produce 10% to 20% more heat from the fuel than other furnaces, hence will heat your home with less fuel than any other furnace would consume. It will burn soft coal, coke, hard coal, lignite, wood, gas or oil.

Come in and see a Lennox Torrid Zone . . . its sturdy locomotive grates . . . its "lazy" shaker.

Get the book that explains fully about other outstanding features. Plans and estimates furnished for new or old homes and other buildings of all types and sizes. Factory blueprints for special problems. Made by the LENNOX FURNACE COMPANY, Syracuse, New York—Marshalltown, Iowa—Toronto, Canada.

CUBS DEFEND THEIR THREE GAME LEAD

FACE NEW YORK GIANTS, NOW
OCCUPYING SECOND
PLACE

ALL 3 NATIONAL LEADERS WERE
BEATEN IN WEDNESDAY
GAMES
(By United Press)

A series which may decide the national league pennant race opens in Chicago today, with the Cubs defending their three game lead against the second place New York Giants.

Last week it was the challenge of the Brooklyn Robins which Joe McCarthy's tribe had to stand off. The Cubs sent the Robins skidding down into third place and nearly out of the picture. Now the Giants, who have made a victorious swing into the west, arrive at Chicago to battle for league leadership.

All three national league leaders were beaten Wednesday, the Robins going so far as to drop a double-header to the Cincinnati Reds, both by the score of 2 to 1.

The Cubs found the hard-hitting Phillies too much for them and five home runs enabled the Phils to win, 10 to 8. Klein, O'Doul and Hurst each hit one, and Catcher Davis came through with two.

The Giants came a cropper at the hands of the Cardinals, and failed to gain. They had a four run lead, but Shanty Hogan dropped the ball when Jimmy Wilson crashed into the plate in the seventh, and the Cards won out, 5 to 4.

The Pittsburgh Pirates hitched up a notch closer to the first division by defeating the Boston Braves, 5 to 0. Remy Kremer won his 17th victory of the season.

In the American league race the leading Philadelphia Athletics beat the Detroit Tigers, 10 to 6. Lefty Grove registered his 21st win of the year.

Washington made up in a measure for some disappointing beatings at the hands of the Browns by walloping their St. Louis visitors, 14 to 4.

Milwaukee, Aug. 21.—(UP)—The tail-end Milwaukee Brewers outdid themselves in the first game yesterday to take an 8 to 2 victory over the league-leading Louisville Colonels. The Colonels came back to take the nightcap 8 to 5.

Minneapolis, Aug. 21.—(UP)—Minneapolis scored two runs in the ninth inning to win a 6 to 5 victory over Columbus in the first game yesterday, but the visitors hammered four pitchers viciously to win the nightcap, 14 to 8.

RIVETS MAKE THE SUBMARINE AIR-TIGHT

**The TORRID ZONE
STEEL FURNACE**
is gas-tight and
dust-tight
because it is riveted

Fumes can never drift up from a Torrid Zone Warm Air Furnace to annoy the family in the dining-room, living-room or in any other part of the house. It is made of steel plate, rolled in the same mills that make armor plate for battleships. It is really an air-tight steel drum.

For just as the submarine is made air-tight by being hot-riveted and cold-calked . . . so the steel Torrid Zone is made gas, smoke and dust-tight.

... Made gas, smoke and dust-tight to shield your family from fumes that poison; to protect your home from smudgy smoke and dust. No more dingy ceilings. No more discolored wall-paper or sooty draperies and upholsteries.

With a Torrid Zone you also get proper humidity and air circulation. The humidifier has twice the evaporating area inside the casing of ordinary water pans. Rapid evaporation is also necessary, so it is placed right over the firing doors where it gets the most heat possible. Proper air circulation is guaranteed, when an authorized Lennox Furnace man installs according to the Standard Code. Indeed, with this furnace in your home you have the satisfaction of knowing you own the finest heating plant science has ever devised.

Your Torrid Zone Steel Furnace will produce 10% to 20% more heat from the fuel than other furnaces, hence will heat your home with less fuel than any other furnace would consume. It will burn soft coal, coke, hard coal, lignite, wood, gas or oil.

Come in and see a Lennox Torrid Zone . . . its sturdy locomotive grates . . . its "lazy" shaker.

Get the book that explains fully about other outstanding features. Plans and estimates furnished for new or old homes and other buildings of all types and sizes. Factory blueprints for special problems. Made by the LENNOX FURNACE COMPANY, Syracuse, New York—Marshalltown, Iowa—Toronto, Canada.

LENNOX TORRID ZONE FURNACE for soft coal with outer casing removed, showing riveted construction. (A) Extra-long smoke chamber, or radiator, squeezes maximum of heat from smoke before it can escape up chimney. (B) The specially designed fuel-saving fire-pot with locomotive grates and other features. You can see why this furnace is guaranteed for 10 years and why its average life, based on the service records of thousands of Torrid Zones, is 21 years.

LENNOX Torrid Zone STEEL FURNACES

The Standard Code for installing a warm air heater, adopted by the National Warm Air Heating Association and written by its research engineers, is our code.

WINSTON CHURCHILL RENEWS ATTACK ON LABORITES

Minister, Kent, England, Aug. 21.—(U.P.)—Winston Churchill, re-nuing a formidable attack on the weakening labor party cabinet, predicted a long delay in granting dominion status to India and criticized the London naval treaty in a speech last night at the conservative party fete.

"Our navy is not going to be equal to the American navy," Churchill told the conservatives. "Ye are to become the second naval power."

"While we are reducing our navies, others are increasing theirs and we may not only find trouble in Asia, but might not be able to bring our foodships through because of war with France."

Churchill devoted most of his speech to the Indian situation.

FIRM BELIEVER IN POWER OF SUGGESTION

Minneapolis, Aug. 21.—(U.P.)—Prof. Wayland Villars, London psychologist, is a firm believer in the power of suggestion.

However, when he fastened his eyes on a prowler who was reaching for \$400 on a dresser in his hotel room today, and "suggested" that the thief "stand still" he discovered his power was lacking.

The prowler dropped the money and fled.

Villars chased the thief along a hallway while his wife, a former New Orleans beauty queen, called the house detective and the police.

A shotgun squad searched the hotel for an hour but could find no trace of the burglar.

Professor Villars who came to the United States recently from London, is filling a lecture engagement. His wife was named Miss New Orleans last winter at the Mardi Gras.

NO TAX REDUCTION ON INCOME TAXES FOR NEXT YEAR

Washington, Aug. 21.—(U.P.)—Treasury officials do not expect the one per cent tax reduction on normal, individual and corporate taxes effective this year to be maintained next year.

Maintenance of the one per cent reduction was not considered impossible but was described as unlikely.

A final decision will not be made at this time, however. Secretary of Treasury Mellon will discuss the possibilities further in his annual report to congress in December.

It was pointed out that the effect of depressed conditions on revenue

would not be known definitely until next March when payments on income taxes for next year will be due.

The one per cent reduction of 1929 taxes which applied to payments this year was voted by congress upon recommendation of Mellon and treasury officials. The reduction totalled \$160,000,000. At the time, the reduction was regarded as a move to bolster business confidence.

DAIRY FACTS

PROTECTION FOR MILK AND CREAM

Cleanly Conditions Are Essential for Products.

Filth and manure, when they gain entrance to milk and cream, give these products their respective odors and flavors. They further contaminate them with many species of bacteria which ferment, the product, decomposing one or more of its ingredients, producing objectionable odors and flavors, and yield ferments which in turn have the power of decomposing the product and deteriorating it in storage.

In order to avoid unnecessary contamination of milk, cream and butter, these products should be produced and handled under cleanly conditions. The barnyard should be kept dry and free from manure so that the cows are not compelled to wade knee-deep in mud before they enter the stable. The stable must be kept free from accumulation of dirt and manure; the manure should be removed at least once daily; the bedding must be clean and the stable must be sufficiently ventilated to eliminate strong animal and manure odors; the floors should be sprinkled with water before sweeping and the sweeping must be done several hours before milking, so as to give the dust in the air a chance to settle before the milk is exposed to the stable air.

The cows must be kept clean, by preventing them from lying down on a filthy floor and their udder and flanks should be wiped off with a clean, damp cloth before milking commences; the currying of the cows should be done after and not before milking.

DAIRY
FACTSPROTECTION FOR
MILK AND CREAM

Cleanly Conditions Are Essential for Products.

Filth and manure, when they gain entrance to milk and cream, give these products their respective odors and flavors. They further contaminate them with many species of bacteria which ferment the product, decomposing one or more of its ingredients, producing objectionable odors and flavors, and yield ferments which in turn have the power of decomposing the product and deteriorating it in storage.

In order to avoid unnecessary contamination of milk, cream and butter, these products should be produced and handled under cleanly conditions. The barnyard should be kept dry and free from manure so that the cows are not compelled to wade kneedeep in mud before they enter the stable. The stable must be kept free from accumulation of dirt and manure; the manure should be removed at least once daily; the bedding must be clean and the stable must be sufficiently ventilated to eliminate strong animal and manure odors; the floors should be sprinkled with water before sweeping and the sweeping must be done several hours before milking, so as to give the dust in the air a chance to settle before the milk is exposed to the stable air.

The cows must be kept clean, by preventing them from lying down on a filthy floor and their udder and flanks should be wiped off with a clean, damp cloth before milking commences; the currying of the cows should be done after and not before milking.
